Chairman's Message

Driving Strategic Growth and Global Partnerships in Q3 2026

During Q3 2026, IDMC continued advancing its vision of positioning Ad-Dulayl Development Zone as a leading destination for industrial investment in Jordan and the region. Our efforts focused on strengthening international partnerships, attracting investment, and enhancing the local business ecosystem.

We expanded our international outreach through engagements with diplomatic missions and trade representatives from Pakistan, Sri Lanka, China, India, and Türkiye, highlighting IDMC's competitive advantages and the opportunities offered by the upcoming Phase 3 expansion. The visit of H.E. the Ambassador of India and the signing of a Memorandum of Understanding with IACCIA represent important milestones in strengthening economic cooperation and attracting foreign investment.

Domestically, we continued our collaboration with key stakeholders, including the Ministry of Investment and the Jordan Chamber of Industry, while advancing sustainability initiatives such as our Energy Audit Program workshop.

Looking ahead, IDMC remains committed to developing world-class infrastructure, fostering innovation, and creating lasting value for our investors, partners, and industrial community.

We sincerely thank our stakeholders, partners, and team for their continued support and trust.
